WORK EXPERIENCE

SWE Intern | SmartBridge - Salesforce

May 2025 – July 2025

- Built a customized Salesforce CRM application with custom objects to manage customers, orders, products, inventory, and campaigns.
- Automated order processing, inventory updates, and loyalty programs using Salesforce Flows and Apex triggers.
- Applied validation rules, roles, and email alerts to ensure data accuracy and improve customer communication.

PROJECTS

HandsMen Threads: (Men's Fashion) | Lightning App Builder | Apex (Triggers) | Salesforce Flows

- Developed an end-to-end Salesforce CRM system for a fashion brand to manage customer data, orders, inventory, and marketing campaigns.
- Implemented record-triggered and scheduled flows to automate order confirmations, stock alerts, and loyalty status updates.
- Designed Apex triggers and validation rules to ensure accurate order totals, real-time inventory updates, and clean data management.

E-Commerce Management System | C++ | Console based

- Developed a C++-based E-Commerce Management System for product listing, order processing, and inventory management using OOP principles.
- Implemented loyalty points, dynamic pricing, and discount mechanisms to simulate real-world e-commerce workflows.
- Optimized performance and memory usage using STL containers and dynamic memory allocation.
